

Ideation Phase

Define the Problem Statements

Date:		Maximum Marks:	
Team ID:	SWDIT-2026-5503	Project Name:	Implement Client Script and UI Policy

Customer Problem Statement Template Guidance:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Reference: <https://miro.com/templates/customer-problem-statement/>

I am <i>Describe customer with 3-4 key characteristics - who are they?</i>	<i>Describe the customer and their attributes here</i>
I'm trying to <i>List their outcome or "job" they care about - what are they trying to achieve?</i>	<i>List the thing they are trying to achieve here</i>
but <i>Describe what problems or barriers stand in the way - what bothers them most?</i>	<i>Describe the problems or barriers that get in the way here</i>
because <i>Enter the "root cause" of why the problem or barrier exists - what needs to be solved?</i>	<i>Describe the reason the problems or barriers exist</i>
which makes me feel <i>Describe the emotions from the customer's point of view - how does it impact them emotionally?</i>	<i>Describe the emotions that result from experiencing the problems or barriers</i>

Template Board Visualization Example:

I AM	I'M TRYING TO	BUT	BECAUSE	WHICH MAKES ME FEEL
IT Service Desk Agent / ITIL User	Log and triage high-priority incidents accurately	Invalid data gets submitted without mandatory fields	Form validation rules and UI policies are missing	Frustrated & Overwhelmed

Project Customer Problem Statements (ServiceNow Incident Management)

PS ID	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	IT Service Desk Agent handling incoming critical	Log high-impact incidents quickly while ensuring mandatory	Incidents are submitted with missing assignment	The incident form lacks dynamic UI policies and client-side	Frustrated & Stressed due to SLA
